

DIRECTOR, OPERATIONS

Vantage Corporate Office, Vancouver, BC

WHO WE ARE

Vantage Airport Group is a privately owned, for-profit, industry-leading investor, developer and manager of airports. Our current portfolio includes airports in Canada, the United States, Europe, and the Caribbean. Offering more than 20 years of experience, we have received international recognition in areas such as design, finance, operations and sustainability while delivering award-winning commercial programs and passenger experiences. Over 50 million passengers travel through the Vantage network on an annual basis and we are poised for continued growth.

THE OPPORTUNITY

The Director, Operations drives operational excellence throughout our global network of airports, and works with airport leaders to develop medium and long-term operational strategies that balance requirements for regulatory compliance with requirements for business success.

This role provides practical support and direction to network airports for compliance with safety, security and regulatory standards; and guides, leads and assists airport teams to identify, evaluate and monitor operational risks, and ensure the implementation of corrective action plans and risk mitigation strategies. He or she is also accountable for identifying and advancing continuous improvement projects and sound business recommendations in a range of operational areas, including initiatives that optimize the use of technology.

This leadership role ensures the delivery of Vantage contractual obligations and is engaged in and monitors network airport budget and business performance. The position also contributes to the Vantage corporate business development team in pursuit of prospective investments.

Engaged and closely involved in our network airports, effectiveness in this role stems from building relationships with airport leaders and operations teams, earning trust by anticipating and responding to needs, and working collaboratively to continuously meet the highest standards for airport operations. Requirements for the role:

- 10 - 12 years of experience in aviation, in roles with escalating responsibility in airport operations and people leadership
- Demonstrated success in delivering projects and initiatives, and leading change
- Experience with the development and implementation of safety management systems and corrective action plans
- Significant experience developing policies and procedures that ensure compliance with regulatory requirements and international best practices
- Experience with and knowledge of the following would be a strong asset: CARs, TP312, Canadian Aviation Security Regulations, CATSA and ICAO airport-related annexes / documents; IATA, FAA and TSA regulations
- University degree or college diploma in operations management, or aviation-related accreditation would be a strong asset; a combination of education and experience will be considered
